2019 Northland Region Shipping Trial

SLA number 39

BACKGROUND

Zespri and Northland Regional Suppliers have been in discussion for some time in respect of further development of the longer-term logistics strategy to service the Northland growing region. With the anticipated production increasing each season, coupled with the continued overall trend of a reduction in specialised reefer vessels and a corresponding increase in containerised cargo, it has become clear that a rethink and reshaping of policy is required with the objective of developing a sustainable and scalable strategy to carry through to future seasons.

The introduction of a container service (weekly in Period 1 and fortnightly thereafter) ex Marsden Point has provided Northland Regional Suppliers the opportunity, in agreement with Zespri, to initiate an SLA which will facilitate a trial of this service.

This SLA sets out the terms and conditions for supplying Kiwifruit under this logistics trial.
